A. Method: text only, never reads t
Adapter
public table: doc, text, group, author; rows shuffled
Pairs
near-duplicates MinHash + LSH Jaccard 0.5-0.95
Clusters
connected components: the unit of evidence
Predict order
length, containment, edit cues, lineage tree
predicted order + cluster ids
B. Evaluator only (src/evaluate.py)
Hidden time t
split off by the adapter; not passed on
t goes only to scoring
Score
per cluster, then average; null: shuffle t in clusters
